

Digital Pathology & Artificial Intelligence

Sara Brenner, MD, MPH

Associate Director for Medical Affairs

Chief Medical Officer for In Vitro Diagnostics

Office of In Vitro Diagnostics & Radiological Health (OIR)

Office of Product Evaluation & Quality (OPEQ)

Center for Devices & Radiological Health (CDRH)

Sara.Brenner@fda.hhs.gov

Digital Pathology & Artificial Intelligence

- Complexity of regulatory landscape
- Keep pace with technology
- Data handling
- Ecosystem of players

Digital Pathology & Artificial Intelligence

- **Complexity of regulatory landscape**
 - Harmonize, streamline
 - Foster innovation
 - Encourage collaboration
 - Promote efficiency, reduce burden
 - Minimize regulatory uncertainty

Digital Pathology & Artificial Intelligence

- **Keep pace with technology**
 - Adapt and evolve
 - Nimble
 - Balanced
 - Encourage innovation
 - Facilitate commercialization

Digital Pathology & Artificial Intelligence

- **Data handling**
 - Methods and Standards
 - Quality and Curation
 - Interoperability
 - Warehousing
 - Security
 - Cost

Digital Pathology & Artificial Intelligence

- **Ecosystem of players**
 - Engage stakeholders
 - Collaborate and coordinate
 - Whole of government
 - Patients as North Star

Digital Pathology & Artificial Intelligence

- We want to hear from you!
