

## The Alliance for Digital Pathology

Dear Alliance,

We thank everyone for contributing to the charter. The current version of the charter is available [HERE](#). The charter captures the overall scope, aim and goals of our community and we now move towards the signatures stage.

Many of you have spent hours on the charter, in workgroup sessions, talks, writing white papers, and helping to shape this emerging field. We are deeply honored and thankful for all your contributions.

We invite you to a meeting on **Friday, November 20, 2020 at 11:00AM-12:00PM ET** to go over the charter and to communicate next steps.

When it is time to join the meeting, please use the following link:
