# VALIDATION: DRIVE SIMULATION

 **nvidia.**  
**DRIVE™ CONSTELLATION**

**DEVELOPER WORKFLOW  
SCENARIO EDITING**

The collage illustrates the simulation environment. The central image is a first-person view from a car, showing a road with other vehicles and a HUD with the following data: **58.9** (speed), **65** (lane position), **0.15** (throttle), and **0.00** (brake). The HUD also indicates **ACC** and **LKA** are **enabled**. Other images show different perspectives of the road and a developer interface for editing scenarios, including code and control panels.

# WHAT CAN WE LEARN FROM SELF-DRIVING?

Data Is How You Transfer Your Knowledge

## LABEL DESIGN

Consider Data Diversity

## ACTIVE LEARNING

Label ONLY What Matters

## FREE LABELS

Other Stains & NLP

## AUGMENT & SHARE
